

GO TO www.mygradeportal.com

Quick tips:

- ✓ Indicates that a non-graded assignment was turned in.

Click directly on a grade to get a detailed “progress report” for that class. (For instance, if your student’s grade is “76,” click on the number to see the assignments that make up that grade.)

Click on “My Homework” to see the current day’s homework assignments from all teachers.

Click into teacher websites to find past assignments and future due dates for individual classes.

Check back often since grades will continue to change as assignments are entered.
