

Tik Tok

My name is Victoria and I'll be giving you the Tik Tok info and updates.

Over 800 million people watch and use Tik Tok. You can easily get an account by logging onto your google account and etc.

If u become viral and you get more than 500,000 views, you can join the creator fund and make twenty dollars!

If any of you are new to Tik Tok, you should know that it was originally called Musically instead. They used to do hand motion videos to the songs and lip-sync. Now, it's known for its great trends and dances. Personally, I love all the dances.

Some of the biggest creators right now are Charli D'amelio, Micheale Le, Bella Poarch, Addison Ray and many others.

- The latest and most popular Tik Tok dance is CryBaby by Megan Thee Stallion Ft. Dababy.
- People this week are giving Charli D'amelio hate.
She went to the Bahamas knowing we were in a huge pandemic.
And earlier during this huge pandemic, she told other Tik tok creators and influencers going on field trips and vacations that it wasn't a good idea.
Unfortunately, she has yet to apologize.

Next edition, I'll be researching more of the latest trends, so stay tuned!
