

## **Check Out These Games!**

There are many video games in the world. Some of the most popular are Fortnite, Minecraft, Among Us, ROBLOX, and many more! And you can play those games on different consoles. You can play Fortnite on Xbox, PC (computer) , Playstation, Nintendo Switch, and you could play on an Apple. For Minecraft, there are two different versions of Minecraft. There is Minecraft Bedrock and Minecraft Java. On Bedrock edition you can play on the Xbox, PC , Playstation, Nintendo Switch and on a mobile device (Apple and Android). On Java, you can only play on a PC. On "Among Us" you can only play on a PC, Nintendo, and mobile. For ROBLOX, you can play on Xbox, PC, and mobile.

I recommend these games to you. All of these games are really fun. They are also entertaining when you play with friends. So next time when you play these games, ask your friends if they want to play too.
